M-PAC Variables

Attitudes (instrumental and affective)
Rhodes, R. E., & Courneya, K. S. (2003). Investigating multiple components of attitude, subjective norm, and perceived control: An examination of the theory of planned behaviour in the exercise domain. *The British Journal of Social Psychology*, 42(1), 129–146. https://doi.org/10.1348/014466603763276162

Perceived capability and opportunity
Lithopoulos, A., Zhang, C. Q., Williams, D. M., & Rhodes, R. E. (2023). Development and Validation of a Two-component Perceived Control Measure. *Annals of Behavioral Medicine,* 57(2), 175–184. https://doi.org/10.1093/abm/kaac033

Intentions
Courneya, K. S. (1994). Predicting repeated behavior from intention: The issue of scale correspondence. Journal of Applied Social Psychology, 24(7), 580–594. https://doi.org/10.1111/j.1559-1816.1994.tb00601.x

Rhodes, R. E., & Courneya, K. S. (2004). Differentiating motivation and control in the Theory of Planned Behavior. Psychology, Health, and Medicine, 9(2), 205–215. https://doi.org/10.1080/13548500410001670726

Behavioural regulation
Rhodes, R. E., & Lithopoulos, A. (2023). The Physical Activity Regulation Scale: Development and validity testing. *Health Psychology*, 42(6), 378–387. https://doi.org/10.1037/hea0001283

Habit
Gardner, B., Abraham, C., Lally, P., & De Bruijn, G. J. (2012). Towards parsimony in habit measurement: Testing the convergent and predictive validity of an automaticity subscale of the Self-Report Habit Index. *International Journal of Behavioral Nutrition and Physical Activity*, 9(102).

Identity
Wilson, P. M., & Muon, S. (2008). Psychometric properties of the Exercise Identity Scale in a university sample. *International Journal of Sport and Exercise Psychology*, 6(2), 115–131. https://doi.org/10.1080/1612197X.2008.9671857

Physical activity
Godin, G., & Shephard, R. J. (1985). A simple method to assess exercise behavior in the community. *Canadian Journal of Applied Sport Sciences*, *10*(3), 141–146.

Courneya, K. S., Jones, L. W., Rhodes, R. E., & Blanchard, C. M. (2004). Effects of different combinations of intensity categories on self-reported exercise. Research Quarterly for Exercise and Sport, 75(4), 429–433. https://doi.org/10.1080/02701367.2004.10609176
